

SPECIALT

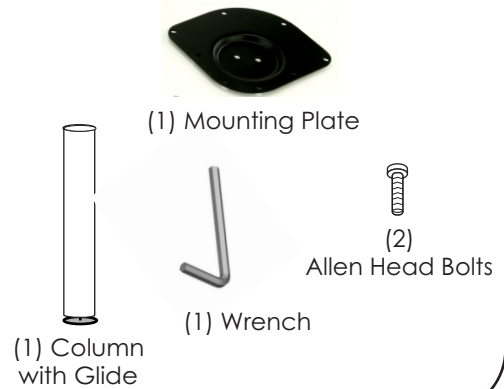

The Premier Source For Tables & Bases

STAINLESS STEEL POST ASSEMBLY INSTRUCTIONS

ATTENTION: Due to the dent and scratch sensitive nature of the stainless steel material, use extreme care when assembling the base.

Components needed for assembly:

Instructions

1. Cover the work area with a soft blanket or carpet. Set the column on the floor with the glide on the bottom.
2. Place mounting plate on the column. Start the (2) Allen head bolts by hand first, then tighten with the wrench.
3. Attach the base to the table and adjust the glides.
4. Use stainless steel cleaner and soft cloth (not provided) to remove finger prints or stains from the base.
